What Is Numerology

Pythagoras was considered to be the Father of Numerology, bringing forward and introducing the belief that everything in the universe could be reduced to a number between 1 and 9. He even started a philosophical religion based on his belief in this science.

With his proven theorems and charts, he has taught us to look into the most important of our life's events, find the number within and gain knowledge as to the purpose for the occurrence. We are forever asking, why me and why now and other such confused questions while searching for answers. I believe as do many others that Pythagoras has shown us a way to interpret solutions to those questions.

Through this report you will receive a definition of each of the numbers in the various areas, as they apply to your life.

1. The meaning and expression for your year of birth

Tarot

This part of the report assigns each letter of your name to a specific card and combines a number of techniques to isolate the information for you with a record of the time and date that it was done.

The cards have always represented to me a direction of our thoughts which directly influence our reality. It is only logical that as one changes ones thoughts and circumstances by understanding and growing in truth and self-respect from the reading, it will also allow help to illuminate other areas and patterns of your life that you might want to change.

Updates are recommended as the message will change as you grow stronger in your own awareness and belief of self. You will find the courage and confidence to move assertively through life, taking responsibility for your journey and living in joy and peace.

Crystal – Selected Crystal

Crystals can be used to represent the energy centers or chakras of a person. When these are out of balance then dis-ease, unhappiness, confusion, frustration or other feelings of being off your path can occur.

A crystal will be chosen for you during the same reading to help isolate areas to be worked with and supported and suggestions made for finding balance again. You might choose to use this crystal in meditation, or wear a similar one as a piece of jewelry or put the crystal in your pocket, purse or on the nightstand. Even just by bringing the colour represented by the crystal into your daily life for a while, you can shift your energy for more balance.

Birth Sign – Your Date of Birth – Astrological Sign

Every birth occurs during a certain alignment of the planets and using your date of birth information to obtain your personal sign, your strengths and challenges inherent in those of that sign will also be presented.
